MIDDLE EAST ENVIRONMENTAL TECHNOLOGIES

MEET profile

Middle East Environmental Technologies Ltd – MEET is dedicated to providing cost-saving solutions using proven environmentally friendly technologies.

Based in Lebanon since 2003, MEET became the exclusive regional agent for a number of leading European and American companies, such as ecoBETA, Idrotech and Vaportek. In 2007, MEET Environmental Solution LLC was launched in the UAE to further service our growing Client base.

MEET has successfully delivered hundreds of turnkey solutions from installation to maintenance in the areas of water conservation, large scale odor neutralization and biological degreasing of drainage networks and industrial kitchen extract ducts.

With representation of MEET products and services in Kuwait since 2011 and further expansion planned in 2015 for KSA and Qatar, our goal is to continue to provide innovative and sustainable business solutions in the region.

MEET management

With 50 years experience in the Middle East, MEET's founder brought together a culturally diverse management team with business practice from Europe, USA and Asia.

MEET's management team brings together degree based knowledge in the fields of engineering, biochemistry, hospitality, business development and finance.

This experience has allowed MEET to become a leader in its field for turnkey solutions that require fluid communication and project management skills that comply with the needs of Developers, Consultants and Contractors.
